

**Consulate-General
of Japan in Chicago**

Japanese Innovation: Developments in Manufacturing Technology and the Japanese Manufacturing Innovation Experience in the U.S.

The Center for Professional Exchange (CEPEX), supported by the Consulate-General of Japan and World Business Chicago, will host a seminar on Japanese innovation in manufacturing and experiences implementing new technology in the U.S. The event will be held at the Japan Information Center (JIC).

Manufacturing systems have been transitioning from labor-intensive to advanced technology systems with the inclusion of automation, robotics and artificial intelligence (AI). Presentations will cover this change, as well as real-time examples at a Japanese-owned reverse service operation in the U.S.

Agenda
